V. 30 Minute Citizen Comment Period

Dr. Shetay Ashford, faculty member at Texas State wanted to thank Council for appointing her to Economic Development San Marcos Board last year. She spoke about the creation of the Dunbar Cultural District. The creation of this cultural district would help strengthen the African American Community. Dr. Ashford submitted a petition of over 100 names of African American community members that support this district. She also noted the lack of sidewalks in the the Dunbar neighborhood.

Ramika Adams, expressed her appreciation for the opportunity to speak of the rehabilitation of the Baptist Church on MLK Drive in the Dunbar District. The creation of a Dunbar Cultural District will help preserve the community and will allow more opportunity for tourism and more resources to come into our

community. It will offers an opportunity for all voices to be heard.

Wayne Thompson, stated that an intentional effort is needed to preserve the Dunbar area. Mr. Thompson grew up in San Marcos and sang in the choir at Bowie and Travis. He spoke of Gospel music and how it needs to be preserved and through the Arts Commission a gospel music festival was funded. He provided a brief history of Gospel music and how it is not just entertainment and there is a need to preserve their heritage, and their music. A larger platform is needed to educate the children and the entire community. He mentioned the recording of his album that was created in this area and the praise he gave to San Marcos on this music project.

Roland Saucedo, spoke about the Neighborhood Districts and the issues with the Land Development Code. He understands that much time has been invested on this, but there is still stuff that we don't know. What is a Neighborhood Character Study? Once we do it what will you guys do with that information? When we are looking at the Neighborhood Districts there are the existing neighborhoods and there is a culture there and we need to preserve it. He understands that the Council could be growing impatient and tired, but you guys are the ones that decided to run and sit on that Dais. He asked that the Council to look at the seriousness in regards to passing Code SMTX.

Eric West, expressed his appreciation that Council is considering mobility parking. He believes this is helpful, but also wants to form a Mayor's Committee on Disability. He mentioned the American Disabilities Act (ADA) has been around for years and it is the least listened to statue regarding civil rights. Disabled persons are trying to get governments to listen to ADA. He knows it is expensive, but this committee can assist with providing recommendations related to how the city spends money on handicap accessibility. Its not that you don't want to help, its just you don't know how.

Robyn Katz, stated that she is a prosecutor and on the State Bar of Texas. She spoke to the Council about an incident involving a pregnant dog that was chained up during the recent cold spell. She provided that there was also a violation regarding the dog not having a swivel. She said the dog house was leaking and that the dog could not get to the dog house. She stated the San Marcos Police Department doesn't handle animal control issues. She sent this to KXAN and the City of San Marcos stated there was nothing illegal. She is demanding transparency because there was illegal things about this case.
