### I. Call To Order

**With a quorum present, the regular meeting of the San Marcos City Council was called to order by Mayor Hughson at 6:07 p.m. Tuesday, February 19, 2019 in the City Council Chambers, 630 E. Hopkins, San Marcos, Texas 78666.**

### II. Roll Call

**Present:** 7 - Mayor Pro Tem Lisa Prewitt, Council Member Saul Gonzales, Council Member Melissa Derrick, Mayor Jane Hughson, Council Member Ed Mihalkanin, Council Member Joca Marquez and Council Member Mark Rockeymoore

### III. Invocation

**Pastor Dr. Chad Chaddick, with First Baptist Church, provided this evening's invocation.**

### IV. Pledges Of Allegiance - United States And Texas

**Council Member Rockeymoore led the assembly in the pledges of allegiance.**

### V. 30 Minute Citizen Comment Period

**Sara Lee Underwood Myers, invited the public to the next Council of Neighborhood Association (CONA) meeting on March 19th. She also referenced Bobcat Build and that they are seeking applications because they want to be number one in the state for community service. A representative with Bobcat Build will speak on the details of the application process. She also asked that the Council approve the ordinance reducing the speed limit in Blanco Gardens.**

**Lisa Marie Coppoletta, spoke in support of Item #6 and the sirens purchase. She introduced her costume for the Mardi Gras Parade and invited Council to attend. She said you are welcome to park in her driveway and in front of her house. She said she loves the spunk and enthusiasm from Kelly Stone and she requested that she ask for reparations for the Blanco Garden Neighborhood because there is environmental racism, known as the Woods.**

**Karen Ford, representative of WaterPR, she is here representing a group called SMARTER San Marcos that is against the SMART Terminal and asked that the council take no action on the Chapter 380 agreement. She stated they are not against the project but the location of the project. This location may not be in the best interest of the citizens or the environment. She has requested that Council slow down and let engaged citizens learn more about this project. They ask the City to require an Environmental Impact Study and a Traffic Impact Analysis. If these already exist we want time to review this information. She asked if there is another location for this project?**

**Erin Magee, expressed her appreciation for Council looking over the City and she spoke against the SMART Terminal and the location. She expressed concern with drainage of this project into our river. She asked that the Council require a 60% impervious cover limit instead of the 72% that it is currently proposed. She stated that there are options and she is open to any options that the Council puts forward. She hopes the Blanco Bypass Project where Yarrington Road meets Hwy I-35 and Hwy 130 is not being considered the flood mitigation project for this property.**

**Kelly Stone, she spoke out against Cape's Dam, and read information related to dams from Internationalrivers.org which states dams are not climate neutral and affect climate change negatively. In the United States more than 1200 dams have been removed, which is a step in the right direction. She stated that our community is not immune to these side effects and she stated the flood, the dam and climate change contributed to the flooding that impacted Blanco Gardens neighborhood. Please restore the river by removing the dam.**

**Becky Patterson, addressed concerns about the SMART Terminal project. She stated that neighbors want to be heard and want to know what the implications are. She asked Council to slow down. She said this area is prone to flooding and spoke about being able to see standing water on the farm lands. She lived in a part of town that co-existed in an industrial area and it was not pretty. Fuel emissions, toxicity from oil and gas, loud engine noise, and constant traffic is not an acceptable environment for people, plants or pets. She stated that there is no gurantee that the San Marcos River will be protected. She asked that the environmental impact study and traffic impact anaylsis be conducted and look for a different location.**

**Jennifer Hayes, provided the Council with a DVD of the audio of a recent Animal Shelter conference. She expressed her concerns with the Animal Shelter's website and the lack of information. She provided that most of the**

**information on the adoption site is blank and volunteers can help write bios.**

**David Sergi, spoke on behalf of SmarterSan Marcos.org. He reminded Council of the days of Sessom Creek and the development they fought against at that time. He referenced the Comprehensive Plan and asked if this SMART Terminal project fits the criteria outlined in this plan. He then spoke about policies and read the land use vision statement of the comp plan: "We envision San Marcos as a community with balanced and diverse land uses that expand our lifestyle choices while protecting and enriching our historical, cultural, and natural resources." We must look at whether or not our comp plan can be looked at when it comes to annexation.**

**Zachary Lopez, spoke on behalf of Bobcat Build and informed Council the event will be held on April 13th. They are currently seeking job sites, with applications due by March 1st. Request forms are located at the library and online at bobcatbuild.txstate.edu.**

**Frank Parrott, spoke in opposition of the SMART Terminal project. He stated that the San Marcos River is one of a kind. He stated that the vision of San Marcos Comp Plan even states that "a river runs through us". He has heard three reasons why we would put a Heavy Industrial Complex 1,250 feet from the river. The first is to bring jobs to San Marcos, the truth is we currently have full employment. Second he stated that our new land development code will protect all and save all, but it will not win against all and human errors will happen. Do not test the code with this project. The third is that the complex is South and the springs will not be affected. However the terminal complex will fowl the river to the south and will destroy habitat.**

**Written Statements were provided by Scott Cove, Mary Beth Harper, and Sharri Boyett**

## **EXECUTIVE SESSION**

1. Consider action, by motion, regarding the following Executive Session items:
  - A.) Executive Session in accordance with Section 551.087, Economic Development, to receive a staff briefing and deliberate regarding a potential Chapter 380 Economic Development incentive agreement for the S.M.A.R.T Terminal Project.

**Mayor Hughson stated the appeals process is currently set by City Council and not an outside entity. Therefore the ordinance could be amended to allow for appeals related to all City owned properties and structures to come before City Council and leave all other appeals as is. The Historic Preservation Commission will still be deciding factor but for appeals it will come before Council. Staff will bring back an ordinance with this amendment and a workshop with the Historic Preservation Commission will be set regarding the Capes Dam project.**

19. City Council Reports:
- Mayor Hughson will provide a brief update regarding her membership on various Capital Area Council of Governments (CAPCOG) committees.
  - Mayor Hughson will provide a brief update related to her membership on the Capital Area Metro Planning Organization (CAMPO).

c) Mayor Hughson will provide a brief updated related to her membership on the Alliance Regional Water Authority (ARWA).

**Mayor Hughson provided a brief update on the various Capital Area Council of Governments (CAPCOG) committees on which she currently serves.**

**At the most recent Capital Area Economic Development District meeting, Charisse Bodisch of the Austin Chamber of Commerce provided a presentation on Opportunity Austin, including an overview of the campaign current data, and how economic development trends are shaping the region.**

**Craig Eissler, CAPCOG GIS Program Manager, presented information about New Flood Scenario Modeling. Last fall, NOAA (National Oceanic and Atmospheric Administration) released Atlas 14, which substantially increases expectations for rainfall events in our region. This means it is not just FEMA flood maps anymore. At the same time, TNRIS (Texas Natural Resources Information Systems) provided new LiDAR terrain data for much of the state. By combining these data, CAPCOG can produce flood scenarios of unprecedented accuracy and timeliness. Mr. Eissler discussed the potential value regarding economic development and planning in addition to general city and county planning. The City will continue to collaborate with CAPCOG to utilize these resources.**

**Each meeting of CARTPO (Capital Area Regional Transportation Planning Organization) includes information regarding TxDOT programs, including grant opportunities. Updates were also received on commute solutions. In October, the committee heard about the Texas Department of Agriculture's Downtown Revitalization and Main Street Programs which offer competitive funding to CDBG (Community Development Block Grant) non-entitlement communities for public infrastructure improvements, to eliminate slum or blight conditions in a downtown area. This does not apply to San Marcos but this information was well received by those who qualify. They also heard about a pilot program between United Way 2-1-1 and Lyft which provides free rides to those with unmet transportation needs in twelve cities around the nation. Austin is one of those cities.**

**Last week the Clean Air Coalition met and discussed funding of our programs. In 2016, the governor vetoed part of the funding for our monitoring activities and the member counties and cities split the cost so the programs could continue. The committee saw an excellent program by the City of Austin Office of Sustainability on Regional Climate Change Collaboration. It covered Greenhouse Gas Emissions, and their Community Climate Plan. Mayor**

**Hughson indicated that she will provide this information to Council and stated additional information can be found at CAPCOG.org.**

**Mayor Hughson provided a brief update on the Capital Area Metro Planning Organization (CAMPO) stating that at last week's CAMPO meeting an interlocal agreement was approved with Caldwell County for planning and engineering analysis to extend Yarrington Road and FM 150 from Hwy 21 to Hwy 130 to increase connectivity. Additional information can be found on their website at campotexas.org.**

**Mayor Hughson provided a brief update on the Alliance Regional Water Authority (ARWA). Phase 1A, the construction of a pipeline between Kyle and Buda to serve Buda's more immediate needs, is currently underway. The next phase will be drilling wells into the Carrizo Wilcox, to determine pipeline routes from the well site to all of the destination sites. These sites include San Marcos, Kyle, Buda, Canyon Regional Water Authority, plus the sites associated with the Guadalupe Blanco River Authority customers who is our partner in this effort. Major water lines from our well fields will be shared which are located near ours.**

**VI. Question and Answer Session with Press and Public.**

**Jordan Buckley, inquired about the SMART terminal and what steps are next? Bert Lumbreras, City Manager, stated the Chapter 380 agreement and the zoning change request will be considered at the March 5th meeting.**

**James Lombardo, asked no question, but made some statements about the issues he sees with the SMART terminal. He stated his concern with the increase in property taxes and the loss of citizens due to these tax increases. Steve Parker, Assistant City Manager, will meet after the meeting to discuss his concerns.**

**VII. Adjournment.**

**Mayor Hughson adjourned the Regular Meeting of the San Marcos City Council at 7:22 p.m.**

**Jamie Lee Case, City Clerk**

**Jane Hughson, Mayor**
